- ACTIVE BRUSH
- RUNS AT VERY LOW WATER FLOWS

HYBRID ROBOTIC
PART NO. APCHYBRID

FEATURES:

- > Suitable for pools up to 10m in length and beach entry pools
- > Cleans entire pool floor and cove
- > Unique LED display allows you to see flow rates
- > Patent pending super efficient turbine allows continuous transmission of dirt to the filter
- > CleverClean software overcomes obstacles such as drain covers
- > Unique Active Brush dislodges staining, offering better cleaning than conventional suction cleaners
- > Easy DIY maintenance

2 YEAR
WARRANTY

PARTS

POOLSWEEPA™
Hybrid

The PoolSweepa Hybrid takes the energy saving smarts of robotics and adds them to a suction cleaner to give you an affordable robotic cleaning solution.

Hybrid scrubs, brushes, vacuums and filters to prevent germination of algae and bacteria. It has the ability to handle rough debris including acorns and palm tree fronds.

ACCESSORIES INCLUDED:

Skimmer adaptor
90 degree adaptor
Automatic safety valve
Flow indicator

POOLSWEIPA™ Floorcova

The PoolSweepa Floorcova is a plug and play cleaning model that converts 240V to 24V DC for minimum cost.

Floorcova requires no connection to pool systems, and is small, light weight and easy to handle. It scrubs, brushes, vacuums and filters to prevent germination of algae and bacteria.

WALLCLIMA ROBOTIC
PART NO. APCCLIMA,
APCWBCLIMA (WONDER BRUSH)

FEATURES:

- > Suitable for pools up to 12m in length and beach entry pools
- > Cleans pool floor, walls and water line
- > Digital switch power supply for long term drive control
- > Adjustable handle floats for optimal pool coverage
- > Ultra fine filter bag collects dirt, debris and dust particles
- > Advanced scanning programme optimises pool coverage
- > Obstacle escape capability
- > Automatic shut off at end of cycle time
- > Motor protection mechanism in case of overload and out of water

The PoolSweepa Wallclima cleans pool floor, walls and water line with the price point advantage of the single speed motor, that converts from 240V to 24V DC for minimal running costs.

Wallclima requires no connection to pool systems, and its environmentally-friendly cleaning process means you require less chemicals. It scrubs, brushes, vacuums and filters to prevent germination of algae and bacteria.

Optional Wonder Brush available for fully tiled or fibreglass pools.

OPTIMA Vs COMPETITOR

The diagrams below are based on computer scan technology which recorded pool coverage by PoolSweepa WALLCLIMA and a leading competitor's cleaning unit over the same pool surface area after a two hour cycle.

WALLCLIMA's advanced scanning programme maps the pool surface contours and obstacles, and efficiently cleans the floor, walls and water line over a series of passes. The competitor model at right has tracked less passes over the pool surface, which results in missed surface grime.

OPTIMA ROBOTIC

PART NO. APCOPTIMA,
APCWBOPTIMA (WONDER BRUSH)

FEATURES:

- > Suitable for pools up to 15m in length and beach entry pools
- > Cleans pool floor, walls and water line
- > Multi-motor tank style steering for the ultimate in scanning and coverage
- > Digital switch power supply for long term drive control
- > Adjustable handle floats for optimal pool coverage
- > Ultra fine filter bag collects dirt, debris and dust particles
- > Advanced scanning programme optimises pool coverage
- > Obstacle escape capability
- > Automatic shut off at end of cycle time
- > Motor protection mechanism in case of overload and out of water

The PoolSweepa Optima is a top of the range cleaner in terms of pool size, cleaning capability and energy savings. Optima is suited for larger domestic and lower end commercial pools up to 15 metres in length.

Optima requires no connection to pool systems, and its environmentally-friendly cleaning process means you require less chemicals. The unit scrubs, brushes, vacuums and filters to prevent germination of algae and bacteria, and has a special water line scrubbing feature.

Optional Wonder Brush available for fully tiled or fibreglass pools.

• REMOTE CONTROL TO SELECT SPEED CLEANING OPTIONS

• DUAL DRIVE MOTOR DELIVERS GREAT ENERGY SAVINGS!
